## Concrete Construction Elements **Byldis Prefab B.V.**

### KIWA STATEMENT

This product certificate was issued in accordance with the Kiwa Product Certification Procedure and is based on BRL 2813 'Concrete Construction Elements' dated 10 January 2023.

The quality system and the product characteristics of the concrete construction elements are controlled periodically. On this basis Kiwa declares that justified confidence exists, that:

The product delivered by the certificate holder upon delivery complies with:

- The technical specification laid down in this product certificate;
- The product requirements laid down in this product certificate and in the BRL, provided that the product bears the KOMO<sup>®</sup> mark in the manner indicated in this product certificate.

The essential characteristics set out in the applicable European standard and the associated quality system control of these characteristics are not part of this declaration.

## Concrete construction elements

---

### TECHNICAL SPECIFICATION

This product certificate relates to concrete construction elements that are intended to be used in construction works for a reference period of 50 years.

### MARKS AND INDICATIONS ON THE PRODUCTS

The products are marked with:

- The KOMO®-mark followed by the certificate number.  
The design of the brand is as follows:

# K-0214688

- manufacturer brand or name;
- production date;
- element number and product number that match the related drawing.

### Product characteristics

The specifications for the products are set out in the drawings approved by the buyer or certified by the company with the approval of the buyer, whereby additional information pertaining to allowable crack widths, structure, colour, smoothness, dimensional tolerances and the like may be provided.

The following concrete construction elements fall under this quality declaration:

- Concrete construction elements in accordance with NEN-EN 1992-1-1, NEN-EN 13670 and NEN 8670, NEN-EN 206 and NEN 8005.

The construction elements consist of (non-)reinforced concrete.

### DRAWINGS AND CALCULATIONS

Upon order acceptance, the certificate holder and the client agree to carry out the tasks and responsibilities regarding the calculations and drawings of the concrete construction elements according to one of the categories in Annexe 8 to the Kiwa-Criteria 73.

For more information, see [www.kiwa.nl/betonelementen](http://www.kiwa.nl/betonelementen).

The drawings and calculations made by or on behalf of the certificate holder will state the category of the corresponding project in addition to bearing the logo of the certificate holder.

### Explanation

The certifying body does not check the calculations in their entirety but performs a random check on the following aspects:

- the actual execution of the agreed tasks by the certificate holder;
- the correct processing of the agreed assumptions used in the calculations;
- the correct processing of the calculation results in the drawings.

### PROCESSING

The manufacturer has agreed with Kiwa to assure the quality of the product after its final inspection in the factory until it is delivered to the delivery site.

The manufacturer will make sure that the buyer is given all of the relevant documentation, such as guidelines for handling and use, product certificates, warnings and the like at the time of delivery.

The manufacturer undertakes to ensure the correct contents of this documentation.

### SUGGESTIONS FOR THE BUYER

Upon delivery, make sure that:

- you are receiving the product you ordered;
- the mark and the way in which the mark is applied are correct;
- the products do not show any visible defects as a result of transport and the like.

If you reject the products based on the aforementioned, please contact:

- Byldis Prefab B.V.

and, if necessary:

- Kiwa Nederland B.V.

See the manufacturer's processing instructions for information on the correct storage, transport and processing method.

The correctness of the performance of the essential characteristics will not be checked under this quality declaration.
